

Now Available: Your New Water Quality Report

We know how much the quality of the water that you and your family drink means to you, so once again we're proud to give you all the details on the full range of tests we're running on your drinking water.

You'll find the latest report for your system at aquarionwater.com/wqr. It also contains information about your system's water source, how we ensure its quality and how you can conserve water.

For a paper copy, call 1-800-832-2373 or email waterquality@aquarionwater.com.

Did You Know?
Your body needs about eight glasses of water per day to stay hydrated. However, this can vary depending on factors like climate, activity level, and overall health.

Introducing the Aquarion Mobile App

Aquarion has added a new tool to help customers manage their accounts and even save water.

- ✓ Effortless bill payments
- ✓ Quick e-bill signups
- ✓ Automatic payments
- ✓ Reviewing your account statements
- ✓ Checking past payments
- ✓ Monitoring water usage

Our new mobile app makes it easy to check current and past account balances, pay your bill and monitor your water conservation efforts – wherever you happen to be.

Downloading the app takes just a quick trip to [Apple's App Store](#) or [Google Play](#). Or a scan of the codes below.

Try our new mobile app today – and discover another convenience of being an Aquarion customer.

There's a version for Apple or Android devices. Download it for free today and you'll be ready to use it for:

Water Conservation Program Returns

With Massachusetts' hottest months and the biggest demands on local water supplies just ahead, we're again scheduling nonessential outdoor water use in several towns to reduce water waste.

Designed to comply with requirements of the Massachusetts Department of Environmental Protection, the schedules are mandatory and apply to customers in Dover, Ponds of Plymouth, Pinehills and Millbury. The schedules will remain in effect through September 30.

Why focus on outdoor water use? Up to half the water used outside is wasted. Leaky or incorrectly programmed lawn irrigation systems account for much of that, along with overwatering.

Your home's schedule depends on the last digit of your street number and which water system you are connected

to. See the schedules below or visit aquarionwater.com/watering for addition details.

Will droughts be back this summer? No one knows. But water is a finite resource. Avoiding waste is important no matter the weather. For more on using it wisely, visit aquarionwater.com/conserve.

Mandatory, Nonessential Outdoor Water Use Schedules

Millbury

0, 2, 4, 6 or 8

(even numbers)

Even-numbered days

12:01 am - 9:00 am, or
